MARKET OUTLOOK

Sugar worked in a light volume and almost unchanged ending its trades with a slight profit taking. Today in LDN was a holyday May Day and trading centers were closed leaving NY without any parameters for prices, besides this Friday was the NY K0 expires what made the market apprehensive for the official announcement of deliveries avoiding the market to make new positioning until its released. The K0 delivery was pegged at 280,400 mm tons with a big trading receiving and four delivering with a big producer. The absorption is getting back to futures with the domestic prices getting strong in India and Brazil. The dollar index reestablished and works +0,54%, but wasn't enough to weaken the commodities CRS +0,14%. The raw on July expire lost 14 points.
