MARKET OUTLOOK

Sugar settled close to the minimum after seven consecutive Day of gains, it may be reasoned by an overbought market with very light demand. The fundamentals are not showing significant changes, UNICA announced today that will release the report from the first two weeks of June next Monday with optimistic expectations considering the good weather. Besides a pullback from technical point and the July expire closer, what will probably maintain the sentiment neutral-bearish in short term. The VHP settled 48 points under on July |(still most liquid month) and refined -\$12,20 in August.
