MARKET OUTLOOK

Sugar futures worked slightly negatives during the Day, with commodities indices weakened and trades on crude oil in a negative tone. NY was pegged in a tighter range without breaking any resistance or support keeping its strength making the traders more apprehensive. Actually another reason for this loss was the overwhelming expectation over China letting Yuan trade more freely, giving a momentary euphoria for commodities. The fundamentals for sugar remains bearish with Brazilian crop 21,1% bigger than the same period last year. The raw settled 4 points under on October and refined -\$1,90.
