MARKET OUTLOOK

Sugar settled almost unchanged as profit-taking pulled-back the market from the four month intra-day high. Market will remain in a bullish trend as long as the logistics problems isn't solved in Brazilian ports delaying the loading and as the importers countries are still rebuilding their stocks. The crude settled a little after significant gains yesterday -0,29%, and dollar index works unchanged. The raw lost 4 points and refined -\$0,50 both in October contract. The white premium tightened again over \$6, settling @ 148,70 based V0/V0.
